NOLI JHON MICKAEL GARDE

JUNIOR SOFTWARE DEVELOPER

Davao City, Philippines, 8000 | mickaelgarde143@gmal.com | github.com/MicKilldev | mickael-porfolio.vercel.app

Results-driven Frontend Developer with strong hands-on experience in building responsive and scalable web applications using React.js and Next.js. Skilled in integrating RESTful APIs, converting UI/UX designs into clean and maintainable code, and optimizing performance for better user experience. Passionate about creating modern, fast, and cross-browser compatible web applications in remote team environments.

CORE COMPETENCIES

Full-Stack Development

- React.js
- Next.js
- JavaScript (ES6+)
- HTML5
- CSS3
- Node.js
- Laravel
- Wordpress
- Elementor
- Flutter
- Mongodb
- XAMPP/MySQL/PHP
- Firebase

Tools & Workflow

- Git & GitHub
- VS Code
- Android Studio
- Arduino
- Chrome Developer Tools
- Basic UI/UX Implementation
- Remote Collaboration Tools

API & Integration

- RESTful API Integration
- JSON Handling
- Axios / Fetch

PROFESSIONAL EXPERIENCE

Junior Software Developer - SudoTech (Freelance / Remote)

2024 – Present

- Developed and maintained web applications using React.js and Next.js.
- Integrated RESTful APIs to connect frontend interfaces with backend services.
- Converted UI/UX designs into responsive, clean, and maintainable code.
- Optimized application performance and improved loading speed.
- Ensured cross-browser compatibility across Chrome, Edge, and Firefox.
- Collaborated with backend developers and designers in a remote setup.

Data Entry Specialist (Remote)

Feb 2025 – Feb 2026

- Assisted clients with software setup and basic troubleshooting.
- Supported documentation and system-related tasks.
- Managed communication and maintained organized digital workflows.
- Applied problem-solving skills in technical and customer-focused tasks.

PROJECT EXPERIENCE

Ascend Website (XAMPP,MySQL,PHP)

- A school management system that allows admins, students, and parents to manage announcements, records, and communication.

Sukati App (Flutter,Firebase,Dart)

- A tailor management system that allows tailors to manage their clients, orders, and measurements.

BlueBalud App(Flutter,Firebase,Dart)

- BlueBalud is a Flutter-powered science app that helps users analyze and explore data with interactive visuals and smart tools in a clean, cross-platform experience

KwartaTala Website (React.js,Node.js,Javascript,Taiildwind,Mongodb)

- A finance management system that allows users to manage their finances.

Wall-E Robot (Arduino)

- an obstacle avoidance robot. It is designed to navigate an environment by detecting and avoiding obstacles using sensors.

EDUCATION

Bachelor of Science in Information Technology

Philippine Women's College of Davao

2024 – Present

- Studying programming, databases, web development, and system design.
- Developing analytical and problem-solving skills for software development.
